

**Crime Prevention**

The active cooperation and participation of all members of the campus community is essential if the University is to successfully reduce crime and maintain a low crime rate. We encourage the campus community to work together to make Chancellor University as crime free as possible. The Department of Campus Safety attempts to inform members of our community on ways to reduce their chance of experiencing crimes against their person or property.

**Judicial Authority**

Chancellor University aspires to transmit knowledge, to develop its students, and to promote the quality of society. In seeking these goals, the University recognizes the significance of student rights. Those rights include freedom of expression, autonomous, procedural protection, and the respect for personal integrity of all members of the community and their property. By ensuring those individual rights, the University fosters an environment conducive to the students' success and well-being. In addition, efforts will be made to foster the personal and social development of students. *The Code of Student Conduct* fully respects students' rights.

Judicial authority rests with the Division of Student Affairs. The President has designated the Provost to be responsible for the administration and operation of this Code of Student Conduct.

University jurisdiction and discipline extends to conduct which occurs on University premises or which adversely affects the University community and/or the pursuit of its objectives. A student or organization will be subject to this Code of Conduct for any action found in violation of this Code which occurs on University property, at University sponsored events, or off campus if the action adversely affects the University community and/or the pursuit of University objectives.
